

SUSAN L. RANCIS

Physician Assistant-Certified

Experience

2010- Present Kallgren Dermatology Clinic, Boulder, Colorado

Responsibilities: Provide team approach dermatological care to evaluate and treat all derm conditions involving skin, nail, and hair. Treat all ages of patients utilizing skin exams and biopsies. Conduct skin cancer screenings, mole evaluation, acne treatment and skin care management, as well as sclerotherapy for leg veins. Evaluate patients for damaged skin, eczema, psoriasis, rosacea, warts, and other disorders.

1997-2010 Skin Care Specialists of Colorado a.k.a. Lake Loveland Dermatology. Loveland, Colorado.

Responsibilities: Independently provide dermatological patient care by diagnosing, treating and prescribing for skin disorders as well as perform biopsies and minor surgical procedures.

While at Lake Loveland Dermatology, the aesthetic and laser practice expanded with the addition of multiple vascular and cosmetic lasers. Other treatments provided include sclerotherapy, Botox and filler injections using collagen, Restylane, Radiesse and Juvederm

In addition to my patient care duties, I have initiated and participated in outreach activities to stimulate the practice growth. These include high school speaker programs and annual skin cancer screenings for local hospitals and melanoma fund raisers. I have been featured in community communications via local news stories and hospital newsletters.

1992-1997 Dermatology and Dermatologic Surgery Center. Stratford, Connecticut.

Responsibilities: Work with dermatologists to diagnose, treat and prescribe for skin disorders as well as perform biopsies and minor surgeries. Other treatments include AHA peels, sclerotherapy, collagen injections, liposuction infiltration and laser (CO2 UltraPulse, Nd:YAG, Argon, Laserscope and Tunable Dye.) While employed 2 additional satellite offices where opened.

1990–1993 Dermatology – Private Solo Practice. Stamford, Connecticut.

Responsibilities: Assist physician with office procedures, treatments and surgery. Provide follow-up care and education for surgical and chronic care patients. Office management responsibilities include ordering supplies, sterilizing equipment and complying with OSHA requirements

1978–1988 University of Colorado, Wardenburg Student Health Center Boulder, CO

Responsibilities: As Assistant Clinical Professor independently provide medical care at a University Health Care Center serving a 22,000 young adult population. Duties include medical history, physical examinations, Ordering x-ray and laboratory tests, prescription of medication, referral and hospital admission. Initiate and implement several clinic improvement programs including a patient self-care center to improve clinic efficiency and facilitate patient education.
